

2022 Exhibit Regulations

For any questions or concerns regarding your booth design and/or construction please contact Show Management before you begin construction.

Exhibitors are required to exercise care so that their displays do not obstruct the visibility of adjacent exhibits. All exhibitors are entitled to reasonable sight lines from the aisle, regardless of the size of exhibit. All exhibitors must comply with the booth guidelines presented. Displays must be confined to the exhibitor's contracted booth space and must not obstruct the clear view and accessibility of nearby exhibitors, fire apparatus, exits or service corridors. Portable signs exceeding four feet in height must be placed at least five feet back from the front of the booth. All display racks, printers and their output must be confined to the booth space and not spill out into the aisle.

Show Management must be informed of any heavy or large equipment or vehicles being brought in. It is the responsibility of the Exhibitor to inform Show Management; otherwise, the Exhibitor may be denied access to the show floor. Exhibitors bringing in large or heavy equipment must adhere to the show Move-In/Move-Out schedule.

THERE ARE RESTRICTIONS WITH RESPECT TO HEIGHT, AS FOLLOWS: (please refer to the online floorplan for ceiling height restrictions and pillar locations).

Standard of Linear Booth

Standard or Linear booths are arranged in a straight line and have neighboring exhibitors on their immediate right and left, leaving only one side exposed to the aisle. Standard or linear booths are most commonly 10ft (3.05m) wide and 10ft (3.05m) deep.

The maximum height of 8ft (2.44m) is allowed only in the rear half of the booth space, with a 4ft (1.22m) height restriction imposed on all materials in the remaining space forward to the aisle. The maximum back wall height is 8ft (2.44m), including signage.

Corner Booth

A Linear booth at the end of a series of in-line booths with exposure to intersecting aisles on two sides. All other guidelines for Linear Booths apply.

End-cap Booth

A booth that is exposed to aisles on three sides and is comprised of two booths. End-cap booths are generally 10ft (3.05m) deep by 20ft (6.10m) wide. The maximum back wall height of 8ft (2.44m) is allowed in the rear half of the booth space and within 5ft (1.52m) of the two side aisles, with a 4ft (1.22m) height restriction imposed on all materials in the remaining space forward to the aisle.

Perimeter Booth

A Perimeter Booth is a Linear Booth that backs on to an outside wall of the exhibit facility rather than to another exhibit. All guidelines for Linear Booths apply to Perimeter Booths except that the maximum back wall height is 12ft (3.66m), including signage.

Peninsula Booth

A Peninsula Booth is exposed to aisles on three sides and comprised of a minimum of four booths. There are two types of Peninsula Booths: (a) one which backs to Linear Booths, and (b) one which backs to another Peninsula Booth. A Peninsula Booth is usually 20ft by 20ft (6.10m by 6.10m) or larger.

(a) When a Peninsula Booth backs up to two Linear Booths, the back wall is restricted to 4ft (1.22m) high within 5ft (1.52m) of each aisle, permitting adequate line of sight for the adjoining Linear Booths.

(b) The entire cubic content of this booth may be used, up to the maximum allowable height of 16ft (4.88m), including signage.

Island Booths

An Island Booth is any size booth exposed to aisles on all four sides. It is typically 20ft by 20ft (6.10m by 6.10m) or larger. The entire cubic content of the space may be used up to the maximum allowable height of 16ft (4.88m), including signage.

These regulations will be enforced at Sign Expo Canada 2022, so please review this information thoroughly as you will be required to modify your exhibit space if it does not comply with the regulations
